

I Can

No! HIV/AIDS should not just be a story
I will not sit back
I can take an action
Time has come to make the right decision
to fight the HIV/AIDS pandemic

“If you complain of noise
It means you have heard”
The HIV message we have heard
But no action
Think about it
And take an action to fight the HIV pandemic

And you should say!

I can talk to my friends about HIV/AIDS at entertainment places,
schools or even workplace
I can advise my children that sleeping around is not fun by inviting
death
I can talk to my spouse about faithfulness to prevent HIV/AIDS
I can advise on HIV/AIDS in gatherings through singing, preaching or
drama
I can change my lifestyle by abstaining from sex to have a bright
future.
